9/10/69

Dear Gary,

Finished reading, correcting ms COUP add, and spent about an hour and a half classifying and carding unclassified files. In the course of this I passed Barry Ernest's file and I realized it has been a very long time since I've heard from him and his project of Archives work - months.

Has he been shipped out?

Did Lifton finally turn him off?

Just silence, no word from him, no explanation of his silence.

I have written Dick for his copy of the Thunderbolt with the honoring of Jerry in it. He also is busy. So, if yours come back, please do not forget it. I'll let you know if I get Dick's.

I've still had no Councillor in about two months. Last issue had the King followup.

Same is true of Bud, approximately. He's had none in long time.

Didn't expect to, but I've heard nothing from Jasper/Mondale.

Sincerely,
